# **RULES GOVERNING AUTOMATIC BLOCK SIGNAL BETWEEN GARDEN HOME AND JEFFERSON STREET, PORTLAND.**

No. 501.

SIGNAL	OCCASION FOR USE	INDICATION	NAME
Color	The signal will appear when	For enginemen and trainmen	As used in rules
(A) Red	Block is not clear	Stop	Stop-signal
(B) Yellow	Block is clear Second block in advance is not clear	Approach next signal prepared to stop	Caution-signal
(C) Green	Block is clear	Proceed	Clear-signal

Type of signal used is three (3) position upper left hand quadrant semaphore. The governing arm is displayed to the left of the signal mast as seen from an approaching train, and indications are given by position as follows:

Horizontal—as the equivalent of A.

Diagonal —as the equivalent of B.

Vertical —as the equivalent of C.

No. 502. Block signals control the use of the blocks, but, unless otherwise provided, do not supersede the superiority of trains, nor dispense with the use or the observance of other signals whenever and wherever they may be required.

No. 503. Block signals for a track apply only to trains running with the current of traffic on that track.

No. 504. When a train is stopped by a block signal, it may proceed when the signal is cleared. If not immediately cleared, it may proceed (see A and B).

(A) On single track, preceded by a flagman to the next clear signal, except that if the next signal in advance can be plainly seen to be a caution-signal or a clear-signal, train may proceed under control without sending a flagman ahead, expecting to find track impassable. Or—

(B) On double track at once under control, expecting to find track impassable.

No. 506. When a train is stopped by a block signal which is evidently out of order, and not so indicated, the fact must be reported to the Superintendent by wire from next open office.

No. 507. Lights must be used upon all block signals from sunset to sunrise, and whenever the signal indications cannot be clearly seen without them. At such times if lights are not burning, or if a white light is shown where a colored light should be, trains must ascertain and be governed by the day signal indication before passing signal.

No. 508. Rule No. 504A will govern use of block through gauntlet track between Harrison and Sherman Streets, Portland.

No. 509. Sign post, "**BLOCK LIMIT**," is located 500 feet east of first signal westbound track, west of Jefferson Street. All trains having schedule meeting points or meeting points made by special order at Jefferson Street, will not pass "**BLOCK LIMIT**" post until eastbound train has cleared west end of gauntlet track, Harrison Street.

Yard engines, work trains or special movements of any character must not pass "**BLOCK LIMIT**" post westbound track on time of eastbound first-class trains. Sherman St. time to apply.

No. 510. The opening of any switch will set and hold signal of that block at stop until the switch is closed. The opening of any switch at either end of a double track crossover will hold signals on both main tracks at stop. If either end of a siding crossover on single track is opened, it will set and hold the signals that control the block or main track to which it leads, in both directions, at stop. Neither switch nor crossover must therefore be opened, until the movement of the train is to be made and must be closed immediately after the movement has been made and the switches locked. When it is necessary to stop at any signal, the front wheels of a train must be at least twenty (20) feet back of the signal, in order to avoid fouling the circuits.

No. 511. Miniature signals, known as switch indicators, located at crossovers and all main line switches in territory covered by block signals, are not yet operative. All movement through crossovers and main line switches in block territory must be made under protection of flag against current of traffic.

## **LIST OF SURGEONS AND HOSPITAL DEPARTMENT INSTRUCTIONS.**

Surgeons will attend, when called upon officially, to all cases of accident occurring to employees or passengers. In cases of sickness it is the intention to limit medical service to the locality or town where a surgeon resides, unless some urgent necessity exists, for which distinct official authority must be had in accordance with established regulations.

Railway officials are required to call on the nearest authorized surgeons whenever practicable, when surgical or medical services are needed. When such are accessible the Hospital Fund will not be responsible for bills for medical services rendered by any other physician. In the event of a sudden emergency, arising from accident, if necessary, proper surgical aid should be procured until the arrival of a regularly appointed surgeon, when the case should be placed in his charge, and in no case should the services of any but an authorized company surgeon be continued at the expense of the Railway Company or of the Hospital Fund after such surgeon is able to assume charge of the case.

Boarding and nursing are furnished only at hospitals with which the Company has made arrangements. We are not responsible for bills incurred elsewhere unless specially authorized or approved by the Chief Surgeon, and then only in critical cases of injury or illness occurring in the discharge of duty.

Stretchers are located at following points: Portland, O. E. Shops; Garden Home; West Woodburn; Albany.

## **TABLE OF TRAIN SPEEDS**

If a train covers the distance between two mile posts in 65 seconds the speed is 55.3 miles per hour.
